

BUPA ... Don't shoulder your responsibilities alone!

BUPA, Britain's largest and most experienced private health care organization, through its wholly owned subsidiary BUPA Ltd., has provided health care schemes for companies in Hong Kong since 1976.

Last year alone BUPA Ltd. grew by 52%. That's because more and more companies, including some of Hong Kong's largest, have turned toward BUPA to remove the financial burden of ever increasing health care costs, turning away from costly self-insurance and inadequate schemes.

With BUPA, you can be confident of selecting exactly the protection your company requires, and experience service that is fast and efficient, but still sympathetic.

And if you are interested in individual health-insurance, there's BUPACARE.

After all, illness or injury is worrying enough — Why not let BUPA remove the financial burden from your shoulders?
